¡Welten, delicias del mar y de las montañas!

Welten Restaurant was founded in 1983. Since then, Welten has earned an excellent reputation here in Antigua Guatemala; not only for our famous dishes, but also for the personal attention with which they are served and magical ambience of the restaurant.

Garden tables with a majestic view of Agua volcano, orchids, bougambilias and rose petals floating in the pool, are but a few of the details that combined create the unique ambience of Welten. Each area of our restaurant has been carefully decorated in its own distinctive style to sit the mood and taste of each customer, making each visit much more personal.

Creamy peppered steak (*Filet au Poivre*), fresh fish fillet in a traditional salsa or our famous seafood fettuccini are just a few tasters of our first class menu. Those who appreciate gourmet cuisine will find that Welten offers the best of both, international and Guatemalan cooking, all made to order using only the freshest ingredients.
